Paul Siebert  
Musicman

For over 30 years, Paul Siebert's quality blend of Family Entertainment and music all throughout the Midwest has delighted thousands with his unique style and a vast repertoire of popular American music that is second to none! Paul uses only acoustic instruments and vocals playing live or uses a compact Bose Acoustic sound system if needed, no loud keyboards, recorded tracks or drum machines! His wide range of music includes any American popular tunes covering all genres of folk, classical, rock and roll, folk rock, country western. Some of the material Paul sings are 50's and 60's country favorites of Johnny Cash, Hank Williams and Roger Miller, Country Gospel, 40's and 50's Western Cowboy tunes from Roy Rogers, The Sons of the Pioneers and Gene Autry, to 60's & 70's favorites from John Denver, James Taylor, and Simon & Garfunkle, 80's and 90's rock and roll to classical greats like Bach, Beethoven and Pachelbelle.

Paul's real passion is in his singer songwriter abilities. He has recorded several CD's of his own original material full of heartfelt stories of family, childhood and growing up in the Midwest. Order Paul's CD's and hear music samples at: [www.paulsiebert.net](http://www.paulsiebert.net)
